

The School Board shall consider and adopt an annual operating budget for the District in accordance with state law. The budget serves as the financial plan for the operation of the District. It provides the framework for both expenditures and revenues for the year and translates into financial terms the approved educational programs, goals and priorities for the District.

The Board delegates to the District Administrator the authority to establish procedures and processes necessary to prepare the annual operating budget. In addition, the Board places responsibility for administering the annual operating budget, once adopted, with the District Administrator. The budget shall be administered in accordance with state law and applicable District policies.

The Board shall do all of the following in the development, approval, and implementation of the annual operating budget:

1. Set goals and parameters that advise budget preparation.
2. Confirm the Board's agreement with a tentative timeline for key process steps that is proposed to the Board by the District Administrator. The administration's proposal for the tentative timeline shall coordinate with the dates that important input data (such as the state budget and reasonable estimates of revenue and aid) are expected to be available.
3. Approve the proposed budget that will be forwarded for public review in connection with a budget hearing.
4. Issue appropriate notice of, hold, and attend the annual public budget hearing in conjunction with the District's annual meeting of electors. The proposed budget, the board's annual budget report, and the treasurer's statement of annual receipts and expenditures shall be presented to the District's electors.
5. After the annual meeting and budget hearing, and no later than the date designated in state law for determining the District's tax levy, adopt the final annual operating budget in light of the Board's goals, any feedback received from the public, and applicable financial constraints.
6. Determine the District's final tax levy in light of the final budget, with the Board Clerk timely certifying the tax levy to the appropriate municipalities.
7. Monitor and evaluate the implementation of the budget periodically throughout the year, using reports prepared by the administration and considering such questions as the following:
  - a. Have expected revenues been received by the District?
  - b. Are expenditures for various purposes in line with the corresponding budget appropriations?
  - c. Have funds been disbursed as authorized?
  - d. Is the budget facilitating or hindering progress on Board and District goals?
  - e. Is the budget as a whole staying within the parameters set by the Board?
  - f. Are any modifications to the budget necessary or desirable?

During the period between July 1st and the Board's adoption of a final annual budget, the District may spend funds as needed to meet the immediate expenses of operating and maintaining the District's educational programs. As to such expenditures made prior to final adoption of the annual budget, the District's standard procedures for obtaining approval of purchasing decisions and payments shall apply, with added consideration given to temporarily deferring expenditures, purchasing decisions, and payments when reasonably practical and when the District will not be disadvantaged by doing so.

Any change to the amounts of the appropriations, or to the purposes for such appropriations, as stated in the final, Board-adopted annual budget requires a two-thirds vote of the entire membership of the Board as a budget amendment. If such action is taken, a Class 1 legal notice of the action shall be issued as required by law. Changes in subordinate line items from which the adopted budget evolved, but which were not detailed in the Board's adopted annual budget, do not require the two-thirds vote or publication (i.e., when adjustments among subordinate line items can be made without making a change to any of the more generally stated non-subordinate line items that were an express part of the final budget adopted by the Board).

In managing budgets and allocations established for individual schools of specific programs, the building principal or program manager shall not modify the applicable budget unless he/she obtains (1) authorization from the District Administrator or his/her designee; or (2) where any modification of a school budget would also constitute an amendment of the District's annual budget as defined in this policy, the approval of the Board.
